

## ATD DAO Roadmap (2025 – 2026)

---

### Phase 1 – Q2 2025: Product Launches

#### 1. Community Hub and Blog

Launch the official DAO blog for project updates, trade insights, and community news.

Educate users on DAO features, token utility, governance, and crypto trading (TA/FA).

#### 2. Prediction Markets (Add-On)

Launch forecast markets for crypto trends, events, and performance metrics.

Winners earn ATD or governance NFTs.

Drive user engagement and community-generated alpha.

#### 3. NFT Integration for Early Access

Mint exclusive NFTs for early access to DAO products & privileges.

Early supporters get limited-edition NFTs tied to loyalty.

NFTs unlock premium tools, content, and whitelist opportunities.

---

### Phase 2 – Q3 2025: Foundation & Community Formation

#### Initial Token Offering

\$0.10 per ATD via initial token sale or community distribution.

#### Smart Contract Deployment

Launch secure contracts for:

Trading Pool capital collection

Staking (Polygon-based yield protocols)

Trader Recruitment

Onboard verified traders for DAO-funded trade execution.

Profit-sharing model based on contribution and performance.

---

Phase 3 – Q4 2025 to Q1 2026: Ecosystem Expansion

Governance

Activate DAO voting through Snapshot or on-chain mechanisms.

Token holders can propose and vote on initiatives.

Signal Monetization Platform

Allow verified traders to sell premium signals.

Subscriptions via ATD or USDT.

DAO takes a commission on revenue.

DePIN Integration (Q1 2026)

Launch middleware to connect real-world devices to blockchain.

Reward contributors with ATD + NFTs based on uptime & data accuracy.

Spin up dedicated DePIN SubDAO to manage infrastructure and incentives.

---

## Tokenomics & Value Growth Strategy

Utility-Driven Demand

Governance voting

Signal access

Staking rewards

DePIN rewards

## Scarcity Mechanisms

Burn 5% of profits from trading

Locked staking for governance participation

## Revenue Use

Token buybacks using DAO income

Reinvest in liquidity, staking rewards, marketing, and ops

---

## Projected Value Targets

Short-Term (1–2 years): Target \$1 per ATD

Long-Term (3–5 years): \$5–\$10+ as the DAO scales within Polygon ecosystem

---

## Purchasing Power Vision

ATD is designed to beat inflation and competing assets. Long-term holders benefit from growing real-world purchasing power, DAO utility, and consistent value creation.

---
